MADE IN USA

## BUCKET HANGER

## HEAVY DUTY INCREASES PRODUCTIVITY

The heavy duty SaniServ® Bucket Hanger Kit is designed to eliminate the need for an employee to stand and hold a 25-30lb bucket under the spigot while draining product, cleaning solutions, or sanitizer during the cleaning process. Typically, rather than holding the bucket, the employee will rest it on the drip tray where the bucket can slip and spill. If the bucket has a bail they will hang it on the spigot plunger or handle. Hanging the bucket on the spigot eventually leads to the face plate cracking. It is not a case of *if* it will crack, but *when* it will crack. We have received many complaints from end users about cracking face plates. When we receive the face plate for inspection, 99% of the cracks are stress cracks caused by buckets hanging from the spigot. This is a very expensive part to replace, so we bring you the new Bucket Hanger!

## SaniServ®, Almost Plug and Play! Cleaning Buckets and Rerun Containers Increase Your Productivity

### Bucket Hanger Kit

- ✓ Holds 25-30 Bucket Under Spigot
- ✓ Made of 11 Gage Stainless Steel
- ✓ Supports 20 quarts of Liquid
- ✓ Increases Employee Safety and Work Productivity

*The new Bucket Hanger* fits on the top of the machine with one end extending into the mix pan and then hangs over the front of the machine. The hook on the front of the bucket hanger holds the bail of the bucket, allowing the bucket to swing under the spigot opening. this makes the process nearly hands free.

*The Bucket Hanger* is made of 11 gage Stainless Steel and will support up to 20 quarts of liquid. The bucket hangers are machine specific, therefore you will need to specify the model number when ordering the bucket hanger. Bucket Bangers are sold separately and in a kit which includes specially designed heavy duty SaniServ® bucket.

We reserve the right to change specifications and product designs without notice. Such revisions do not entitle the buyer to corresponding changes, improvements, additions, or replacements for previously purchased equipment.
